We have what they
want/need!

United States: Corn

Yellow numbers indicate the percent each state contributed to the total national production. States not numbered contributed less than 1% to the national total.

Note: The agricultural data used to create the map and crop calendar were obtained from the National Agricultural Statistics Service at: <http://www.usda.gov/nass/>.

- Major areas combined account for 75% of the total national production.
- Major and minor areas combined account for 99% of the total national production.
- Major and minor areas and state production percentages are based upon averaged NASS county-level and state production data from 2000-2004.

Corn crop calendar for most of the United States

Crop calendar dates are based upon NASS crop progress data from 2000-2004. The field activities and crop development stages illustrated in the crop calendar represent the average time period when national progress advanced from 10 to 90 percent.

Management

- “To feed our growing global population , we will have to produce the same amount of food in the next 40 years that we previously produced in the last 10,000 years”.
- Quote by Norman Borlaug (father of the modern green revolution)

Opportunity for Kansas

- Land
- Water (if used wisely)
- Understand of the importance of agriculture
- Good infrastructure/transportation
- Support from State officials?
- Relatively supportive reg. environment
- Need - - immigration reform!
